THE CAMPMEETINGS NOW IN FULL SWING

METHODISTS OF SOUTHERN CAL. AT ARBAMAR.

MUSICAL CLARKS WONDERFUL

Methodists Arrived Monday and Will Remain For Two Weeks; Daily Services Are Being Well Attended.

The Methodists of Southern California began arriving Monday, and have kept Rev. and Mrs. F. D. Mather of Arbamar busy. The daily services are being well attended, and indicates that the people are more interested in religious matters than ever before.

The first platform meeting was more largely attended than any opening meeting in the past, which, to some extent, may be attributed to the presence of Governor Stephens.

The evangelical services are also being well attended, and Dr. Lincoln A. Ferris made his initial bow to an Arbamar audience Monday night, and has shown scholarly attainments. Tuesday night his text was from the third chapter of St. John's gospel, which he said was the storm center of religious thinking.

The great attraction at the meetings this year is the appearance of the Musical Clarks, Mr. and Mrs. George H. Clark and their son, Gordon Beverly Clark, 11 years of age, assisted by Mrs. Mabel Hardwick Stewart, all of Los Angeles.

These four artists have a wonderfully lot of talent, and could be headliners on the Orpheum stage any time they choose to sign a contract for secular work. Mr. Clark has a remarkably strong and sympathetic tenor voice, and Mrs. Clark is endowed with a deep, rich, contralto; but the marvel of the Clark trio is Gordon Beverly, whose voice is a cross between his talented parents. Beverly, as he is known, beyond any doubt has one of the most attractive voices of any child of his age in this section of the country, and it is doubtful if it is excelled by anyone of his age anywhere. Mr. and Mrs. Clark are not only splendid singers, but are accomplished musicians on the harp, violin, mandolin and guitar. Unfortunately, Beverly had a cold and was unable to finish the services Tuesday night.

Mrs. Stewart has a charmingly sweet, clear and magnetic soprano voice, which makes her a valuable assistant in the great work. Everyone who fails to visit the campmeetings and hear these singers and musicians will miss a great musical treat.

The evening services begin promptly at 7:30, and the singing continues for 30 minutes, followed by Dr. Ferris, the evangelist.

The big tent erected as a dining hall for the accommodation of the Epworth League members, last week, was taken down Monday, and the visitors this week are being cared for in the cafeteria and lunch room.

MORE YOUNG MEN ARE GOING AFTER KAISER.

Walter B. Rigdon, C. Michael Adair and Eugene Meserve left Fullerton at 6 o'clock Monday evening for Camp Lewis, Tacoma, Wash., being the ones selected from Huntington Beach of the quota for the second district for the July call. Walter is a son of Mr. and Mrs. F. H. Rigdon, Mike of Mr. and Mrs. W. M. Adair, and Eugene of Mrs. Joseph Lewis, and have been anxious for some time to get into the service and do their part in making the world safe for democracy.

ANCONA PULLET LAYS FIRST EGG IN FOUR MONTHS.

There has been considerable said recently about the laying qualities of young pullets. The latest report is from Mrs. Dennis V. Hearn, who has an Ancona pullet that layed its first egg at the tender age of 4 months and 10 days, which is the record so far as known to date.

THERE WAS NO LECTURE GIVEN MONDAY NIGHT.

H. Hinrich of Orange was billed to deliver a lecture at Odd Fellows' hall Monday night at 8 o'clock, but as there were only four persons present, besides the speaker, he decided that he would not talk. Two other citizens arrived after Mr. Hinrich left the hall.

LARGE NUMBER OF VISITORS HERE SUNDAY.

STORES AND BATH HOUSE DID BIG BUSINESS.

There were a large number of visitors in Huntington Beach, Sunday, the warm weather prevailing in the interior bringing them in by the hundreds. One party who visited Balboa in the afternoon stated that there were more people here than there were at that popular summer resort Sunday. This is an indication that Huntington Beach is on the itinerary of those who seek the seashore at this season of the year as it has never been before.

One of the busiest men in the city was Lawrence Davis, manager of the bath house and plunge, as the number desiring accommodations were close to the record for Sunday business, but was considerably less than on the Fourth.

D. W. Huston had a deluge of business at his bowling alleys and confectionery stand and fishing tackle.

The trade varied in different places. At Obarr's Drug Store the demand for ice cream exceeded that of the Fourth.

At Rigdon's Pharmacy the sale of cream was less than on the Fourth, but the total sales were larger than on any previous Sunday.

Jackson's Candy Shop and the Greek-American Kandy Kitchen enjoyed a large business, as did the restaurants and other places open for business.

There were more bathers to be seen in the surf about three o'clock than on any other day for several years.

GOVERNOR STEPHENS DELIVERS ADDRESS

SPEAKS AT THE METHODIST CAMPMEETING.

LARGE AUDIENCE PRESENT

Remarks Ring With a Commendable Patriotism; Has Visited Every County In State; Has Son-in-law In France.

Huntington Beach had the distinguished honor of entertaining Governor William D. Stephens for a short time Tuesday. This was the second time in the history of the city that the chief executive of the commonwealth has taken notice of this section of Orange county.

Governor Stephens met with a rousing reception when he entered the auditorium at Arbamar, accompanied by Rev. S. S. Sampson of Corona, general manager of the Huntington Beach Methodist Assembly.

California's war governor was introduced by Rev. Charles H. Scott of Ontario, secretary of the Assembly, who said that he had known the governor for so many years that he knew the inside of his life as most others did not. He recalled the time when he and Mrs. Scott were students, struggling to get through the U.S.C., before they were married, and the future Mrs. Scott was employed in the home of Governor Stephens, who was then a Los Angeles business man. Rev. Scott stated that the governor's family were fond of hot cakes, and when Mrs. Scott had prepared the cakes for the family, Mr. Stephens often entered the kitchen and said, "Now, Anna, you go and sit down and eat and I will prepare the cakes for you." Such acts as these, said Rev. Scott, are the key to this great man's life.

As a war governor, he said Mr. Stephens had been a great credit to the State of California, and his record was one that every patriotic citizen could commend, and he continued: "I'm going to say right out in meetin' that I am for him for another term." The applause that followed this declaration indicated the governor's popularity with the big audience.

Governor Stephens prefaced his remarks by saying that he believed the people of this nation are nearer to God than ever before. He said that he had visited every county in this great commonwealth, something which no other governor had ever before attempted to do, as there were 11 or 12 of the 58 counties in the state that had been overlooked in the past. This he had done in order to ascertain direct information as to the people's needs in every section of the state, and to arouse the people to the fact that there was but one question to be considered, and that was to win the war; and that California must assist in that great task.

The statement had been made, he said, that California was not particularly interested in the war, being so far away; but he found that the citizens of this state were as much interested in the war and just as patriotic as those of any other state.

Governor Stephens stated that he had found the citizens of Smith River, Del Norte county, 100 miles from a railroad station, as intelligent-looking, as well-dressed, and as patriotic as in other sections of the state.

He said the war must not end until Germany had been overwhelmingly defeated. No one should be contented with anything less, as it was the only way that the women and children of this nation were safe.

Everyone should help to get as many boys to the front as quickly as possible in order to decide the terrible conflict. The governor said he was delighted to see women in his audience knitting. He knew how the sweaters and other knit goods were appreciated, as he had a son-in-law who was a captain of the marines who did such effective work in France.

Governor Stephens said he had advised citizens to grow war gardens who had said to him afterwards that it did not pay, as they could have saved money by buying the products grown. This, he said, was a mistake, as if no one grew any such gardens all would have to live on the products from the markets. No matter what the cost of growing such gardens, they did help, because there was just that much saved of the common food supply.

J. C. TALBOTT PASSES AWAY IN KANSAS.

RESIDED IN THIS CITY FOR A FEW MONTHS.

Word has been received from Mrs. J. Clifton Talbott of Hutchinson, Kansas, that Mr. Talbott passed away there last week. Mr. and Mrs. Talbott left Huntington Beach May 7th for Hutchinson, where Mrs. Talbott's parents, Mr. and Mrs. D. W. Roberts, reside, on account of Mr. Talbott's health. They came to Huntington Beach in November of last year and Mr. Talbott purchased an interest in the Basket grocery with Jesse M. Smith.

While Mr. and Mrs. Talbott resided here but a short time, they made many friends, who deeply sympathize with Mrs. Talbott in her great bereavement.

Before Mr. Talbott's health failed he was an active member of the Chamber of Commerce, being a member of the finance committee, and was interested in the civic life of the community.

Mr. Talbott was born in Brooklyn, Iowa, August 25, 1869, and the family moved to Hutchinson, Kansas, when he was 13 years of age, and he and Mrs. Talbott were united in marriage in that city May 13, 1894. He is survived by three brothers, J. B. Talbott and A. M. Talbott of Hutchinson and J. T. Talbott of Los Angeles, and one sister, Mrs. W. H. S. Bennett of Hutchinson. Prior to coming to Huntington Beach, Mr. and Mrs. Talbott resided in Boise, Idaho, where Mr. Talbott was engaged in newspaper work, and also in Pasadena.

Mr. Talbott was a member of the Methodist Episcopal church, and a man of splendid character, being highly respected and admired by those with whom he came in immediate contact.

The News joins with Mrs. Talbott's friends in extending sympathy.

CHAMBER OF COM. MEETING TONIGHT

A MUNICIPAL LIGHTING PLANT TALKED OF.

ALL ARE INVITED TO ATTEND

Some Topics of Interest May Be Discussed; Some Talk of Municipal Lighting Plant; Date For Fall Festival To Be Fixed.

The regular monthly meeting of the Chamber of Commerce will be held this (Friday) evening in the library building at 8 o'clock. One of the topics that will be discussed is the Community Fall Festival, and the date will no doubt be fixed at this meeting.

There is some talk of a municipal lighting plant, to take over the business at the expiration of the present contract next year. There are some cities that own the distributing systems and purchase the current, the same as the city of Huntington Beach is now conducting the gas system. There appears to be no good reason why the lighting business could not be operated with as equally satisfactory results as the gas system. A small bond issue would provide for the construction of the distributing system. However, this question may not be discussed at this meeting, as it is only recently that there has been any consideration of the problem.

H. B. PRODUCE ASS'N. WILL ELECT OFFICERS.

MEETING OF MEMBERS ON NEXT THURSDAY.

The first annual meeting of the H. B. Produce Association will be held at 10 o'clock next Thursday morning in the library building. There will be seven directors elected, and the directors will select officers for the coming year.

CROQUET IS BECOMING A POPULAR GAME.

Much interest is being manifested in the game of croquet since the recreation grounds at the library were opened. On many occasions several players have remained on the field as long as they can see to play by twilight.

EXAMINER MEN WERE IN CITY LAST WEEK

ATTEMPT TO HOLD PUBLIC MEETING FAILS.

FOUR SYMPATHIZERS ATTEND

Resolution Drawn Asking Library Board To Rescind Action and Lauding Examiner For Its Patriotism Meets With Failure.

There were two young men in Huntington Beach, Thursday and Friday of last week, looking for sympathy for William Randolph Hearst and his Los Angeles Examiner, and after working hard for two days, threw up the sponge and returned to tell the story to their superiors.

A long resolution, extolling the Examiner and its publishers for their patriotic work, and asking the library board to rescind its action in barring the Examiner from the public library was drawn. The program included securing a large number of signatures to this resolution and then holding a meeting in one of the Main street stores and have the resolution adopted with a flourish of trumpets, so that the story could be published in the Examiner of how the people of Huntington Beach had unanimously endorsed Mr. Hearst and his publications.

The program was an unbounded success, with two exceptions—that of securing the names on the petition, and the meeting, which failed to materialize. Otherwise, it was as much of a success as could have been expected.

According to well-authenticated reports, there were six names on the petition Friday evening when the time arrived for holding the big meeting. The show was supposed to open at 8 o'clock. However, at that time there were no citizens of Huntington Beach present except the proprietor of the store and one who had not been invited. The two Examiner men appeared to be much disappointed, and stated that several had promised to be present. One of them went across the street and returned and reported that a certain man would "be here in two minutes." Another dry spell. One supporter looks in for a minute, but "beats it" when he finds no meeting in progress. Another dry spell. Examiner man returns again and reports that the certain citizen would "be here in five minutes." The other Examiner man returned and stated that another citizen would arrive soon.

Another dry spell, during which the causes of the failure were discussed from various angles of the compass.

One of the Examiner employes said he was going out and bring some in with him, and he returned with a well-known man in tow. Two other citizens arrived in the meantime.

It was now half past nine, and Mr. Hearst's representatives thought it was time to proceed with the meeting, as they no doubt felt encouraged to find that there were three men present besides the merchant, who was scheduled to act as chairman of the meeting.

After some further delay, the one who was to act as chairman said: "Now, gentlemen, to be fair with everybody I'll have to say that I do not believe this is a representative body of citizens of this community, such as should be present to warrant the passing of this resolution; therefore I decline to call the meeting to order."

The Los Angeles men asked two of the men present, who had not already done so, to sign the resolution, so they could take it along with them, and one of them did so and the other declined. There was one woman present for a few minutes.

The Canadian, English and French governments barred all of the Hearst publications long ago, as the officials of those nations believe that Mr. Hearst is strongly pro-German. Bolo Pasha was executed in France for his disloyalty, and Mr. Hearst has not offered a satisfactory explanation to many loyal Americans for his reported friendship for that traitor and spy when he was in America.

J. STITT WILSON TALKS AT CAMPMEETING.

MAN WITH A PROPHETIC VISION OF HUMAN AFFAIRS.

J. Stitt Wilson of Berkeley was the speaker at the platform meeting Wednesday morning at Arbamar, and delivered one of his prophetic messages that have been stirring the people of Southern California to a higher and deeper patriotism than they had ever before dreamed of.

There are many who have heard Mr. Wilson recently that class him among the leaders of original thought of his generation. He will be the speaker again this (Friday) morning at the Arbamar auditorium, and it is to be regretted that there was no opportunity to advise he News readers of the fact that Mr. Wilson was to be here, as there are no doubt many who would have been pleased to have heard this brilliant man.

Mr. Wilson says that all must realize that there had been a turn in the road, and the old things have passed away. "Let the dead bury their dead," he said, "and when the Kaiser and his royal family have been buried, there will be a lot of other things that will be buried with them." The world has been full of lies, and the divine right of kings is one of them.

He told a story of his boyhood, when he was a member of a family of ten children. The family dog bit a neighbor's child, and the father of the injured child insisted on the dog being killed. The senior Wilson said: "It will be a sad blow to our family, as they all love the old dog; but if you insist, he will be killed." That night the dog was killed.

Mr. Wilson said when the Jesus appeared on this planet there were about 100,000,000 people in the Mediterranean country that had no more rights than the old dog that his father killed. There was value upon almost everything else except human life. The valuables were learning from the Greeks, law and money from the Romans, and religion from the Jews.

The tragedy of all ages, he says, would have been for the present world war to have been decided without America taking part in it. The war, in his estimation, occurred in the nick of time to save the church of Jesus Christ.

God is no respecter of persons according to Scripture, and Mr. Wilson said that no man has any right to classify or separate men and women and say that some of them are better than others, or have any more standing with God.

There are no such words in God's vocabulary as Methodist, Presbyterian, Baptist or Protestant, says Mr. Wilson. And to be a member of a church does not add to one's responsibility, or not being a member exempts no one, as there are no exemptions in this battle for freedom that is being fought behind the lines today.

No two men, he says, has any right to place any religious restraint upon the third man.

Those who worship a God who is of a kingly nature or ruler as a magnified human being, have the wrong view, as the day of kings is past.

Mr. Wilson's topic was "The Spiritual Basis of Democracy."

Mr. Henderson is an old-time plainsman and hunted buffalo in the early days on the eastern rim of the great American desert, as the country was known at that time.

Christian Endeavorers Win.

There is much rejoicing among the Christian Endeavorers of this vicinity, due to the fact that they captured the banner at the county meeting held in Orange, Wednesday night, for the largest percentage of membership present. Delegations were present from the Christian, Presbyterian and Congregational churches of the county, and the winning of the banner under such circumstances is a flattering tribute to Huntington Beach Endeavor workers. Much of the credit is due Mrs. J. M. Haptonstall, president of the society. Some time ago the Sunday school of the Christian church was awarded the banner at the county meeting for winning at athletics. This banner was won for the third time, and becomes the property of the Sunday school.

From San Diego.

Miss Esther Brainard of San Diego was among the Epworth League delegates who attended the Institute at Arbamar, being the guest of Mr. and Mrs. V. B. Brown while here. She finished a normal course and will teach the next term of school. Miss Helen Brainard was a member of the graduating class of the San Diego High school. From New Mexico.

Mr. and Mrs. W. T. Newland and daughters, Misses Helen and Bernice, returned Monday from New Mexico, after an absence of nine weeks. The trip was made in their Stutz car and required one week. A broken spring occasioned a delay of more than a day in Arizona, being the most serious trouble experienced. Mr. Newland has 3000 acres of fine tillable land near Estancia, of which 300 are now seeded with pinto beans, for which the Government has agreed to pay 8 cents per pound. Their daughter and son-in-law, Mr. and Mrs. Corbett, have charge of the New Mexico ranch.

Moved to Oklahoma.

Mr. and Mrs. Earl Miller left Wednesday for Bartlesville, Oklahoma, where they will make their future home with William Fleming, father of Mrs. Miller. Mr. Miller has resided here for seven years and Mrs. Miller four years, and they have a large circle of friends whose best wishes will follow them to their new home. Bartlesville is an important oil center, and Mr. Miller expects to be employed in the oil industry. Bartlesville is 40 miles north of Tulsa, one of the principal cities of that section of the state.

At Coquelle, Oregon.

A. C. Burrows writes from Coquelle, Oregon, that he is one of 50 soldiers sent to that remote sawmill town from Vancouver, Wash., to assist in getting out lumber for airplanes. He has charge of the traffic affairs for the government, and thinks he will probably remain there two or three months. Mr. Burrows sends his best wishes to his many friends in Huntington Beach. He was agent here for the Pacific Electric Railway for six years prior to April 1, 1917.

SHOES!

Part of a large order which we placed in the East for Shoes a long time ago arrived last week, and we are certainly pleased with them and are sure you will be. The quality and price could not be duplicated now. The shipment contains Fine Shoes for Women in gray, mahogany, and black; Army Shoes for Boy Scouts and other boys, and some fine English Shoes in mahogany color for Men.

In a short time it will be impossible to get gray shoes, for the Government has given notice to manufacturers that they can make shoes in only four colors—black, white, and two shades of tan. Further, we are informed that shoes of the immediate future will be higher in price and poorer in quality than ever before, because the Government has commandeered for soldiers' use the best part of each hide, leaving only the hide of the legs, neck and belly for civilian use.

We are particularly pleased to have gotten this shipment, because these shoes were made before the new regulations were in effect.

The Shoes for Ladies come with high heels and military heels, and priced from $5.65 to $6.75.

The Army Shoes for Boys will delight them, we know, for they are exactly like the Army shoes for men, and are all leather—new pair free if any paper can be found in them. The price, $4.85.

The Mahogany Shoes for Men sell at $7.50, and have all the style and quality it is possible to put into a shoe at anywhere near the price. Compare them with shoes at $10.

Bring in the whole family to be shod. We are in better position than ever before to fill your needs at saving prices.

Mr. Farmer and Rancher:

Implement Sheds—Implement Sheds

All over the country the farmers are taking to heart the advice of Secretary of Agriculture Houston to build sheds to protect their farm implements.

The marked advance in prices of all agricultural implements has at last proved to the farmer that to leave any machinery out in the weather is simply throwing good money away.

We would be pleased to have you call and let us show you what we have to build this shed.

GET RID OF SOOT NOW.

◆

Soot is a waster. One one-hundredth inch of soot is as hard to heat through as ten inches of iron.

War economy of coal and money demands that the interior of stoves and furnaces be cleaned.

Instant action on soot is needed. The clean-up should not be put off until fall. It should be begun now.

When fires are going regularly, cleaning should be done every two weeks. The soot layer forms fast, and the greatest amount of heat from the smallest amount of coal can be obtained only if soot is exterminated.

The householder who insists on a sootless policy will protect his pocketbook, his family, his fellow men and his country. Coal shortage threatens America this winter. Unless every user of coal is on his toes to prevent even the smallest fraction of waste, many persons may endure such suffering as comfortable America has never supposed possible.

Very truly yours,
ALBERT E. SCHWABACHER,
Federal Fuel Administrator for Cal.

LARGEST STORE AND LARGEST STOCK.

◆

Those who have cash to pay for their groceries and carry them away themselves are realizing that the old-established firm of McKenney & Bentley is making attractive prices on quality goods.

There are some who still believe that our cash prices are high because we maintain the most extended delivery system in this section of Orange county. An inspection of our cash counter, where all goods are marked, will convince the closest buyers that our prices are the lowest to be found.

We handle more goods than any other firm, therefore we are the largest buyers. We have been in business longer than any other firm, and therefore have a reputation to maintain; consequently, what we say must be borne out by facts. Inspect our cash counter and be convinced. If you desire accommodations we are at your service.

WEEKLY GREETING.

It is the habitual thought that frames itself into our living.—J. W. Teal.

◆ ◆ ◆

BONE DRY CALIFORNIA.

A movement has recently been inaugurated with headquarters for the Southland in Los Angeles, known as "Bone Dry Confederation of California," which is affiliated with the National Dry Federation.

The objects of the Federation are as follows: First, win the war; second, ratify Federal amendment; third, war prohibition, state and nation; fourth, opposition to Rominger bill; fifth, California dry this year.

An initiative amendment will be placed on the ballot, which, if adopted, will make the liquor traffic unlawful after December 31, 1918.

This would give California war prohibition, and there appears to be but little doubt but what such a law will be adopted by a decisive majority, although there was an adverse majority of 101,561 November 7, 1916. The drift of sentiment toward the dry cause is indicated by the fact that the voters rejected a similar amendment November 3, 1914, by a majority of 169,245, being a gain of 67,684 in two years' time, showing conclusively that the prohibition question, like all others, is an educational one, and must be solved by publishing good, wholesome information on the subject.

It is believed that thousands of voters will support the dry amendment this year solely on account of the war, and this, along with the usual change occasioned by the educational work, should easily place the movement safely "Over the Top."

The vote in Ohio is a splendid illustration of the educational value of dry campaigns. There have been three elections in the Buckeye commonwealth in as many years, the first being held November 3, 1914, when the liquor forces were victorious by 84,152. The second, Nov. 2, 1915, the majority for John Barleycorn was reduced to 55,414, a gain in one year of 28,740. The third encounter was staged two years later, Nov. 6, 1917, and the wets came under the wire with a scratch majority of 1,137, a gain in the two-year period of 54,275. It will be noted that the percentage of gain between the first and second campaigns was 33 per cent, while it increased to about 98 per cent during the time that intervened between the second and third elections.

FORDSON TRACTOR WILL SOON BE ON THE MARKET.

The public demonstration for the Fordson Tractor will take place near Los Angeles within the next two weeks, and delivery for the Fordson Tractor will commence in about a month.

METHODIST CHOIR ENJOYS FEAST ON THE BEACH.

(Miss Dorcas A. Davis.)

Great excitement reigned on the beach at Eighth street last Friday evening. Many people taking their homeward or townward way along Ocean Drive showed plainly that the inhabitants of Huntington Beach are not lacking in that human characteristic—curiosity. Or were they perhaps attracted by the smell of roasting weiners mixed with the salt in the air? Anyway quite a crowd gathered to look down on the members of the choir of the First Methodist Episcopal church and their friends picnicking on the sand below the bluff. It is little to be wondered at that outsiders were interested from a culinary standpoint, for in addition to weiners roasted on tongs over a glowing fire, there were salads, fruit, pickles and such cakes as most people today are only privileged to read about.

The picnickers arrived about six-thirty, and there was much rushing about and good-natured joking while the table, or rather the tablecloth, was spread upon the sands, the weiners roasted, and each person provided with the instruments necessary to do justice to the feast set before them. However, when they began they made short work of the "eats." After supper some of the picnickers sat on the sands for a while laughing and talking, and, perhaps if the truth be known, preparing to rise after a too-hearty meal. The affair was a great success from the viewpoint of the old proverb, "Laugh (and picnic) and grow fat."

The picnic was somewhat in the nature of a reception to friends of the choir members, as well as an official meeting of members and former members. In fact, it was rather remarkable that many of the people present were representatives of rather distant cities and towns.

Among those present were Rev. and Mrs. R. I. McKee, Mr. and Mrs. H. A. Bowman, Mr. and Mrs. Louis A. Copeland and daughter Louise and son Joe, Mrs. W. L. Miller and Miss Miller of Glendora, Miss Mildred Mitchell, Miss Esther C. Brainard of San Diego, Mrs. Paul C. Elfeld and Miss Elfeld, Mrs. W. H. Taylor, Miss Ruth C. Brown, Miss Elsie Lake, Miss Louise Campbell, Mrs. G. C. Foote, Miss Mabel Foote, Raymond A. Foote, Mr. and Mrs. H. B. Ireland, guests of Rev. and Mrs. McKee; Miss Van Fleet, her cousin, Mrs. Geo. Barclay of Los Angeles; Miss Edith Lewis and Miss Ethel Larason, friends of Miss Van Fleet from Columbus, O.; Miss Marie Russel, R. C. Turner, Miss Turner and Mrs. Turner, Miss Clara Clark, Mr. and Mrs. F. H. Day, J. A. Whitfield, Miss S. M. Whitfield and their niece, Miss Dorcas A. Davis of Rhode Island, Miss Irene Chambers of Redlands.

PERSHING SPEAKS FROM FRENCH BATTLEFIELDS.

WILL BE HEARD SATURDAY NIGHT AT PRINCESS.

General John J. Pershing will address the patrons of the Princess theatre Saturday night. Of course he will not be there in person, but a phonographic record will be played which contains a message, "Pershing Speaks to America From Battlefields of France."

The message contained on this record, it is said, was taken from General Pershing on the battlefields, by the Columbia Talking Machine Co. The reverse side contains a four-minute talk by former Ambassador James W. Gerard, and will also be played.

The machine and record will be furnished by the McElfresh Merc. Co., agents for Huntington Beach for this company.

PRESIDENT OF ST. LOUIS STICKER CO. HERE THURSDAY.

Charles Hesse of Los Angeles, accompanied by his brother, Wm. J. Hesse of St. Louis, and two friends were in Huntington Beach, Thursday. Charles Hesse has owned property here for several years, and another brother in St. Louis also owns some lots, which he purchased two years ago.

This was Wm. J. Hesse's first visit to California, and he was overflowing with enthusiasm about the Southland, and stated he felt that he wanted to live here. He is president of the St. Louis Sticker Co., a big printing concern that makes a specialty of stickers of all kinds. He was a delegate to the national advertising convention at Oakland.

Charles Hesse is superintendent of one of the departments of the Neuner Co. of Los Angeles.

SIX O'CLOCK CLUB GROWING RAPIDLY.

BRANCH HAS BEEN ORGANIZED AT SEVENTEENTH STREET.

The Six O'clock Club is in a very flourishing condition. A branch has been organized at Seventeenth street, as some members of the original organization, which meets at Eighth street, who reside in the Seventeenth street section, decided that it was too far to walk, and there being no transportation facilities at that early hour, thought it best to organize a club of their own, on their own beach, and applied to Judge Louis A. Copeland and J. K. McDonald, president and secretary of the club, for a charter, which was promptly granted.

There were 24 members present at Eighth street, Thursday morning, which was the high water mark for attendance. The club was organized about six weeks ago. One feature about it is that there are but few of the original members now attending, but many new ones continue to join. There is no initiation fee and no monthly dues. All that is required is a bathing suit and be on the beach at 6 a. m.

VOCATIONAL AGRICULTURE FOR H. B. HIGH SCHOOL.

If we can find fifteen boys over fourteen years of age who do not plan to go to school, who would put in a crop on a piece of land, care for it a part of the day or a part of the week, under the direction of a special teacher, and who would spend an average of four hours a day or twenty hours a week studying farm science, farm English, farm mathematics, and farm mechanics, in a class or classes, the Huntington Beach Union High school will put in such a teacher and such a course.

The boys would have to pay rent, or at least figure it as paid, keep account of every day's labor, and of every cent paid and of every cent received to calculate the year's profit or loss. His success in the course would depend upon the financial success of his farm project.

Boys cannot enroll for this course unless they have quit school. Will every person who thinks of a boy whom we might get to take this work, please send his name to the clerk, F. H. McElfresh, Huntington Beach, California? Will every boy over fourteen who has quit school and who would like to take such a course, please send in his name at once or see Mr. McElfresh personally? No boy needs to hold back because he has no land to farm. We believe that there are plenty of farmers who would gladly rent a few acres to a deserving boy for such a purpose. No others but deserving, hard-working need apply.

E. L. MITCHEL, Principal.

ADDITIONAL SOCIETY.

Visited Yosemite and Tahoe.

Mr. and Mrs. H. A. Benning and son Arthur returned Thursday night of last week from a vacation of two weeks spent mostly in the Yosemite Valley and the big tree groves and at Lake Tahoe. They crossed over the Tioga Pass at an altitude of 9990 feet. Several pictures were taken, but unfortunately the one at the highest point on the pass was a bad one. The trip was made in their Hudson "Super Six," and the speedometer showed a distance of 1500 miles was traveled. The return trip was via San Francisco, where they were joined by Ralph Myers, cousin of Mrs. Benning, who is now their house guest.

Returned Sunday Night.

Mr. and Mrs. H. T. Dunning returned Sunday night from their annual vacation of two weeks. Mrs. Dunning spent most of her time with her parents, Mr. and Mrs. A. M. Brownlee of Los Angeles, as she is unable to visit the mountain altitudes without inconvenience. Mr. Dunning was a member of a party that fished in the vicinity of Bishop in the Owens River valley and at Lake Tahoe, returning via Carson City, Nevada, and San Francisco. The party had wonderful luck at fishing.

From Camp Lewis.

Mrs. Fred Gallienne returned early Thursday morning from a visit of two weeks at Camp Lewis, where Mr. Gallienne is in the service and is enjoying his work. The only other men Mrs. Gallienne met from this vicinity were Kyle Howard, cashier of the First National Bank prior to going to Camp Lewis, and Chas. R. Nutt, Jr., son of City Clerk and Mrs. Chas. R. Nutt. Mrs. Gallienne states that there are very few men at the camp at this time.

From Yuma.

Mr. and Mrs. O. C. Johnson and family of Yuma, Arizona, are the guests of Mr. Johnson's parents, Mr. and Mrs. W. A. Johnson. Mr. Johnson is a prominent undertaker of Yuma and will return next Wednesday, but Mrs. Johnson and family will remain until the middle of September, when Mr. Johnson will come after them. The trip was made in their automobile which will be left here for the family during their visit.

Baby Boy.

Mr. and Mrs. Grover C. DeLapp of Worland, Wyoming, are rejoicing over the arrival of a five-pound baby boy, born Sunday, July 21. Mr. and Mrs. DeLapp resided in Huntington Beach prior to moving to Worland a short time ago, and have many friends who are pleased to hear the good news. Twin boys were born, weighing five pounds each, but one lived but a few minutes.

On Catalina Island.

V. B. Brown left Tuesday in charge of 60 boys under the direction of the Y.M.C.A. for Catalina Island for a vacation of 10 days on Catalina Island. They were accompanied by a Chinese cook, and the first day he was stung by 14 hornets, which was too much for John and he left the camp.

From Nebraska.

Mr. and Mrs. J. P. Howell had as their guests Thursday, Mr. and Mrs. A P. Moberg and daughter, Miss Hannah, Arvid Sunburg and daughter and Mr. and Mrs. Swan Peterson of Aurora, Nebraska.

Sunday at Talbert.

Mr. and Mrs. I. C. Warner and family visited with Mrs. Sarah Warner of Talbert, Sunday.

CORPORAL COLE WRITES FROM THE BATTLEFIELD.

The following letter was written by Glen Cole, a former Huntington Beach boy, who is now a corporal in France, to his uncle, Ethan Cole, of this city:

6-12-18.

Dear Uncle:

Just a line to let you know everything is fine here. We have been having some excitement lately, but they have found out that we are hard to lick. They will know it for sure when the bunch gets over here. I am driving at present and I am getting a chance to see France. It is very beautiful here now—they have trees planted along all the roads, and every town of any size has iron gates at all the entrances, just like those old castles we used to study about in school.

Well, I will close for this time, with love to you both. GLEN.

NOTICE.

Notice is hereby given that the first annual meeting of the H. B. Produce Association will be held at the Chamber of Commerce room, public library, Huntington Beach, on Thursday, August 1st, 1918, at 10 o'clock a. m., for the election of officers for the ensuing year, and for such other business as may come before the meeting.

H. B. PRODUCE ASS'N.
Earl Farrar, Clerk Pro Tem.

THOMAS J. LENNON SEEKS DESERVED PROMOTION.

When a servant of the people does not only his duty but goes beyond it and perfects the method of doing it, thus saving time and money to the State, it would seem that the very least recognition the people could take of such service would be to keep him and give him higher and more important work to perform.

Thomas J. Lennon, Presiding Justice of the District Court of Appeal of the First District has announced his candidacy for Associate Justice of the Supreme Court.

Judge Lennon has had thirty years' experience in this state as lawyer and jurist. For the eight years last past he has been Presiding Justice of the First District Court of Appeal.

He is recognized throughout the country as one of the most progressive judges on the bench. His terse, yet eminently just and learned decisions have won him the admiration of the lawyers of California. He has regarded always justice rather than form, the kernel of the matter at issue rather than its shell. In addition to his erudition, he possesses a keen business ability which has enabled him to devise and introduce into the work of his department such reforms of procedure for the expediting of decisions as to excite nation-wide commendation.

ROLPH WILL SPEAK IN SANTA ANA MONDAY NIGHT.

James Rolph, Jr., mayor of San Francisco and candidate for governor of California, will tour Orange county Monday, speaking in Santa Ana at 8 o'clock. Mayor Rolph is after both Republican and Democratic nominations and is considered one of the strong candidates, having upset the calculations of other candidates by filing just before the curtain dropped on July 18, the last day for declarations.

Mr. Rolph's friends claim that he will sweep the northern section of the state, and he is meeting with an unexpected reception in the Southland, opening at San Diego Wednesday night.

5 Good Years

We have just completed our 5th year of business in Santa Ana, this last year being our very best. We began here in 1913, in a little room on North Main with only 1900 feet of floor space. Before a year we had outgrown that room, and today we occupy the big room at the corner of 4th and Bush, with 8320 feet of floor space—over four times our first little store—and our rooms are full from basement to balcony. Nothing but good goods at right prices, together with right treatment to the good people of Orange county can account for the big success of Taylor's Cash Store, and we do from our hearts thank each one who has helped to make our store one of the most popular in Santa Ana.

And now, as we begin our 6th year, we want to say to each and every person in Orange county: "Our store is yours. We couldn't have succeeded without your help, and now use us; we are here not only for our own good but yours." In completing our invoice we find many broken lines and seasonable goods that we have put on our tables at deep cut prices. "Come in and be shown." And here's hoping that our 6th year will be our banner one. We are going to try hard to make it so. Come help us.

J. O. Taylor, Jr., will now devote all of his time to helping make Taylor's Cash Store the best place to trade in Orange county, and J. W. Taylor, Sr., will, as he has for the last 5 years, try his best to "make your dollar go farther here than anywhere." "Come in and be shown."

NINETY-FOUR SUGAR FACTORIES TO OPERATE.

◆

BIG DECLINE IN CALIFORNIA ACREAGE.

◆

(Facts About Sugar.)

With the prospect of a scarcity of sugar in the American market during the latter part of the year and with the possibility of delay or interruption in the movement of ocean borne supplies, the outlook for beet sugar production during the coming campaign assumes unusual importance. For this reason particular care has been exercised in collecting the information contained in our annual compilation of sugar beet acreage. The figures in the following tabulation are presented with the confident assurance that they fully and accurately represent the extent of beet sowings up to June 15. On that date planting was practically completed in every part of the country, replanting in the few sections in which it was necessary was nearly finished and cultivation throughout a large portion of the beet growing area was well advanced.

As shown by the special reports gathered from all beet growing districts, plantings aggregate 711,043 acres. This acreage is distributed among sixteen states. While this represents a decrease of 83,000 acres or roundly ten per cent as compared with last year, the showing is actually more satisfactory than seemed likely to be attained at the commencement of the season for contracting acreage. The strong inducements offered to farmers by other crops which are not regulated as to price so severely as sugar, the uncertainty as to the labor supply and the agitation conducted in several important sugar producing states to stir up discontent among growers all operated as unfavorable factors in the acreage situation.

Some striking changes in the distribution of acreage appear in a comparison of the present season with 1917-18. In California, which last year led all the states in the area devoted to beets, a decline of approximately 33 per cent has taken place this year. This has been due in part, particularly in the southern portion of the state, to the dry weather which prevailed during the planting season, and in part to the agitation conducted among the growers and the uncertainty prevailing up to a late date as to the price that would be paid for beets. In Colorado, which was also a center of disturbance, a falling off of over 20 per cent has occurred. Nebraska and Idaho show smaller declines in acreage, while Utah just about holds its own as compared with last year.

In Michigan, on the other hand, an increase of over 12 per cent is recorded, while the sowings in Ohio have expanded over 40 per cent. In general the Eastern factories report an appreciable increase in acreage, while the falling off has been confined to the larger producing sections of the West.

From present indications ninety-four factories will be in operation during the 1918-19 campaign, although there is still uncertainty regarding one or two of this number. The opening of these factories will depend upon the growth and yield of beets in their territory. Definite reports indicate that six factories will not run. These are Chino, in California; Fallon, in Nevada; either Burley or Paul in Idaho; Las Animas and Lamar, in Colorado, and Waverly, Iowa. The last named has not been in operation for several years.

Utah now leads all the states in the number of its factories, with a total of seventeen. Two are added this year, the Springville-Mapleton plant, now under construction by the Dyer Company, which will be completed in time for the season's run, and the Gunnison plant, removed from Waverly, Washington. Washington gains two active factories this season. One of these, at Toppenish, is the factory removed from Grants Pass, Ore., and the other is the new Sunnyside plant of the Utah-Idaho Company. The factory erected at Whitehall, Mont., by the Amalgamated Sugar Company gives that state a total of three active plants. Michigan also gains one in the number of operating plants by the reopening of the Marine City factory, which will be operated by the Independent Sugar Company. The factory of the Beet Growers' Sugar Company at Rigby, Ida., will not be finished in time to run this season, and the factory at Hamilton, Mont., remains uncompleted. These two unfinished plants are not included in the total of one hundred factories for the entire country.

An encouraging feature of the situation is the generally good condition of the beets now in the ground and the satisfactory progress of the crop thus far. In California lack of moisture during the early spring, with the prevalence of dry winds, retarded growth except on irrigated ground, but during the past few weeks conditions have been somewhat more favorable. In the Intermountain district unseasonably low temperatures prevailed during the greater part of May, but fairly Colorado suffered from too little rain during the first half of May. Toward the end of the month rains were general and brought about an improvement in the crop. A hailstorm at the end of May did slight damage in Colorado, but caused some havoc in Nebraska fields. Both Montana and Nebraska report the prevalence of temperatures below normal, which have retarded the growth of young plants somewhat.

In Minnesota and Iowa and throughout the section east of the Mississippi growing conditions are reported as better than the average, the only complaint being of too much rain at a few points. In Michigan and Ohio, particularly, the crop is reported to be making fine progress, in contrast to conditions that prevailed last season at the corresponding period. A general summary of growing conditions shows the crop very close to the average for the middle of June. In the East the condition on that date was rather better than average, while in the West it was slightly below.

Labor conditions throughout the beet growing belt are characterized as abnormal and unsatisfactory. Little trouble was encountered in putting in the crop, but there is a scarcity of labor for blocking and thinning and a serious shortage for later operations is anticipated in many sections. In the Western states the situation is being met fairly well by the importation of Mexican workers. Further east high school boys, members of the Boys' Working Reserve, are being employed extensively. This labor, of course, is less experienced and efficient than that obtainable under normal conditions. While the harvest may be delayed in certain sections by insufficient labor, special efforts are being exerted to cope with this situation.

It is too early in the season to make an accurate forecast of the probable outturn of the crop in terms of sugar. Much depends upon the weather conditions of the next three months. Based upon the acreage planted, with the customary allowance of 10 per cent for abandonment and with an average yield equal to that of last year, the crop would amount to about 625,000 ordinary tons. The conditions that prevailed last year during the latter part of the season, however, were exceptionally unfavorable, and it is reasonable to hope for better conditions this year. If this hope is realized a crop of 700,000 tons may be anticipated, while exceptionally favorable weather for the remainder of the growing period might send it as high as 750,000. As a conservative present estimate, which may be greatly modified in either direction by later developments, a crop in the neighborhood of 700,000 tons may reasonably be looked for.

OLD GLORY IN FRANCE.

◆

Proudly she waves o'er America's sons,
Proudly she flings her bright folds to the breeze,
Showing the boasting and blood-thirsty Huns
That they never can rule the earth or the seas.

Our soldiers are brave and loyal and true,
Standing firm for justice and right.
Marching under "Old Glory"—the Red, White and Blue—
With the other brave boys in the fight.

Our brothers are calling from over the seas,
"Come help us for honor and right."
We are coming, if need be, five million or more,
And we'll put the bold Kaiser to flight.

We've now joined the Allies. Our banners shall wave
Together over lands and the seas.
We'll challenge the Huns, their armies to save,
While our flags we unfurl to the breeze.

And when our brave boys return from abroad,
With "Old Glory" in victory unfurled,
We feel they'll have won for the Red, White and Blue
The respect and the love of the world.

Written by L. W. Stearns of Huntington Beach. Comrade Stearns was a member of Company G of the 8th Minnesota Volunteer Infantry in the Civil War. He is now 89 years of age.
